5.8 cu. ft. capacity gas range with EvenAir™ convection

Built to cook everything from dinner for two to large family feasts, this industry-leading 5.8 cu. ft. capacity[1] freestanding range has the space to get it all done and the power to get it done fast. You won't know how you ever cooked without features like EvenAir™ convection, a 15,000 BTU Power Cook burner, a 17,000 BTU Speed Heat™ burner and a 10-year limited parts warranty on the die-cast metal grates and oven and cooktop burners to protect your purchase. For added convenience, odor-free, low temperature AquaLift® self-clean technology helps get your oven clean in less than an hour. Plus, you can be proud knowing your innovative new range is designed, engineered and assembled in the U.S.A.

Top Features

Industry Leading 5.8 Cu. Ft. Capacity
From everyday meals to large family feasts, count on the industry-leading 5.8 cu. ft. capacity[1] to meet all your cooking needs.

EvenAir™ Convection
A fan evenly circulates air, providing a consistent oven temperature for uniform browning, even baking and faster roasting.

AquaLift® Self-Clean Technology
This innovative coating on the oven interior activates with water and heat, to release tough baked on soils, from underneath so food and debris easily wipe away.

Additional Features

17,000 BTU Speed Heat™ Burner
With 17,000 BTU of power, the Speed Heat™ burner is perfect for handling large cooking jobs such as searing steak or quickly boiling water. Plus, it provides the power and flexibility expected of Maytag brand.

10-year limited warranty on burners and grates
A 10-year limited parts warranty on the die-cast metal grates and cooktop and oven burners ensure long-lasting performance.

Designed, Engineered and Assembled in the USA
From Oklahoma to you, Maytag® ranges are designed, engineered and assembled in the U.S.A.

3 Oven Racks (2 Standard - 1 Max capacity rack)
The Max Capacity oven rack is recessed to provide maximum cooking capacity, which is perfect for large items and holiday meals.

Power Center Gas Cooktop
Power Center cooktops includes a powerful configuration of burners built to provide the power and flexibility expected of Maytag brand.

Precision Cooking™ System with Precise Preheat, PreciseBake and PreciseBroil
This cooking system combines Precise Preheat, Precise Bake and Precise Broil to provide dependable, even cooking throughout the oven for exceptional results and optimal performance.

Variable Broil
Located in the top of the oven cavity for easier access, the broil element can be adjusted for precise, consistent cooking results.

Better built cooking components
Heavy-duty door hinges and cast-iron grates help ensure these ranges are built to last and provide the durable, reliable performance Maytag brand is known for.

Flex-Choice™ simmer burner
This dedicated cooktop burner keeps cooked food warm and frees up other burners for additional meal preparation.

Panoramic View Oven Window
Extra-large oven windows provide better visibility of the interior, allowing you to monitor cooking progress without opening the door, keeping oven temperatures steady and undisturbed.

Keep Warm™ Setting
Maintains the oven's lowest temperature at a warm and steady 175 degrees Fahrenheit without continuing to cook the food so everything is hot and ready to serve at once.

Reliable Electronic Touch Oven Controls
These easy-to-use touch-pad electronic controls offer precise temperature adjustment.
